

La BDS BLINDA SRL nasce nel 1987 come produttrice di porte blindate standard e fuori misura. Nel passare degli anni è riuscita a portare nel mercato, anche grazie ai suoi clienti, un prodotto di qualità elevato.

Quando si acquista un prodotto BDS BLINDA non si ha solo una porta di sicurezza, ma anche un prodotto di design che valorizza la Vostra casa: “capace di isolarvi dal mondo esterno con soli tre giri di chiave”.

Le nostre porte blindate esprimono il vostro universo privato, in perfetta sintonia con l’ambiente circostante.

Le nostre porte rispondono alle classi di certificazione 3 e 4, con vari kit acustici estendibili fino a 45 dB. Assieme a voi creeremo la vostra blindata di famiglia.

BDS BLINDA SRL was established in 1987 as manufacturer of standard and custom made security doors. Through the years, it has placed on the market high quality products, and this is also thanks to its customers.

A BDS BLINDA door is not only a simple security door, it is a door designed to add value to your house: “a door to leave the world outside by simply turning the key three times”.

Our doors interpret your private universe and perfectly suit the surrounding environment.

Our doors comply with the 3rd and 4th certification classes and several acoustic kits up to 45 dB are available.

With you, we will design your family security door.

BDS blinda
PRODUTTORI PORTE BLINDATE

Tutti i nostri prodotti sono marchiati CE

La marcatura CE è un contrassegno che autocertifica la rispondenza (o conformità) ai requisiti essenziali per la commercializzazione e utilizzo nell’ Unione Europea. Il simbolo CE significa “Conformité Européenne”, ed indica che il prodotto che lo porta è conforme ai requisiti essenziali previsti da Direttive in materia di sicurezza, sanità pubblica, tutela del consumatore.

All our products have the marking CE

Through the CE marking the manufacturer declares that his products comply with (or are conform to) the essential requirements needed to place them on the market and be used within the European Union. The CE symbol means “Conformité Européenne” and declares that the product connected with it complies with the essential requirements of the European health, safety and consumer protection Directives.

Resistenza all'effrazione

Classe 3 – Una porta blindata appartenente a questa classe di sicurezza è in grado di resistere a tentativi di effrazione effettuati anche con il piede di porco; porte che garantiscono questo livello di sicurezza possono essere valutate come porte caposcala di edifici ad alto rischio di effrazione.

Classe 4 – Una porta blindata di classe 4 può respingere gli attacchi di ladri esperti che utilizzano accette, martelli, scalpelli, seghe e trapani. È una porta adatta alla protezione di uffici bancari, orologerie, villette signorili, laboratori industriali ecc.

Burglar resistance

Class 3 – A security door belonging to this security class can resist break-in attempts carried out also using a crowbar; doors guaranteeing this level of security can be assessed as landing doors for buildings with a high burglary risk.

Class 4 – A class 4 security door can fend off attacks by expert thieves who use axes, hammers, chisels, saws and drills. It is a door suitable for the protection of bank offices, watch shops, stately homes, industrial laboratories, etc.

Sistemi ammaestrati

Da sempre cilindro e chiave significano protezione dei luoghi dove viviamo. Per questo dotare ogni porta di un cilindro sicuro e affidabile è una necessità primaria per tutti. NON SOLO. Oggi, alla crescente domanda di controllo degli accessi, occorre rispondere con soluzioni ed esperti in grado di consigliare e offrire sistemi a chiave maestra per la casa.

Master key systems

Cylinder and key have always been synonyms of protection for the place we leave in. That's why all of us think that every single door must have a reliable cylinder. NOT ONLY. Nowadays, the ever-increasing demand for access control calls for experts to provide adequate solutions and offer master key systems for our houses.

Sistema KA
una chiave per tutte le porte

KA System
one key for all doors

Sistema MK
una chiave maestra per aprire tutte le porte e una chiave per una porta sola

MK System
one master key opens all the for doors, plus one key for each door

Essenze per rivestimenti in legno

BDS BLINDA esegue rivestimenti con essenze particolari (Mansonia o altri) o laccati o RAL.
Per lavorazioni specifiche, come disegni personalizzati, pannelli pantografati o dogati in MDF o in Compensato Marino, la BDS BLINDA si riserva di eseguire un preventivo. L' eventuale differenza di tonalità e figura dei pannelli dello stesso codice colore è dovuta all'essenza viva del legno. **I pannelli sono prodotti con materiale non adatto alle intemperie; qualora ce ne fosse l'esigenza, specificarla al momento dell' ordine.**

Wood species for wood linings

BDS BLINDA manufactures doors with special woods (Mansonia or others), lacquers and RAL. For special requests, as personalized drawings, moulded panels or MDF and marine plywood boarded panels, BDS BLINDA will submit a cost estimation. Different wood tones and patterns on panels of the same colour-code are due to the natural uniqueness of every single tree. **Panels are manufactured with a non weatherproof material. If required, please specify at the order.**
